Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 4 blocking script resources and 15 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

Remove render-blocking JavaScript:

Configure the viewport

Your page specifies a fixed-width desktop viewport. Use a responsive viewport to allow your page to render properly on all devices.

<u>Configuring a viewport</u> specifying width=device-width instead of width=1200 will allow your page to adapt for devices of various widths. This may require additional work to adapt your styling for

smaller screens.

Përmiresim për tu konsideruar:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. <u>Size the page</u> <u>content to the viewport</u> to provide a better user experience.

The page content is 1,210 CSS pixels wide, but the viewport is only 1,200 CSS pixels wide. The following elements fall outside the viewport:

• The element <div class="wb_shp"> falls outside the viewport.

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider <u>making these tap targets larger</u> to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target and 2 others are close to other tap targets final.
- The tap target and 1 others are close to other tap targets final.
- The tap target is close to 1 other tap targets final.
- The tap target <button type="button">Got it</button> is close to 2 other tap targets final.

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. <u>Use legible font sizes</u> to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.
